Beautiful Decay Barf 3D - James Callahan

\$29.99

All we're going to say is, Spy vs. Spy, dolls heads, skulls, robots, pirates, pigs, apes, etc, etc. all spewing red and blue-ness on each other. What more do you want from a tee? This has got to be the most insane shirt, ever!

Wicked comic book illustrator, James Callahan, the "retarded genius" behind Barf Comics, has really done it with this new design. Damn, if this isn't the official tee of Subcitizen.

Beautiful/Decay is the definitive art and design magazine that showcases emerging and established contemporary artists. It began designing apparel in early 2006 creating a line that's, basically, "wearable art". Each of the one of kind shirts you see are designed by artists who have previously contributed to the magazine. Damn, we love these guys!!
